CERTIFIED HEDGE FUND PROFESSIONAL (CHP) STUDY GUIDE

This study guide has been created for those individuals who are studying for the Level 1 CHP Designation Exam. Registration for the CHP program is open year round.

The CHP program is rigorous and continually improved to ensure that it is practical, current, and valuable to both participants and employers. Everyone gets lifetime access to the program upon registering for access.

The content of the CHP Study Guide as follows:

- I. Hedge Fund Group (HFG) Overview
- II. CHP Level 1 & Level 2 Details
- III. CHP Level 1 Timeline
- IV. CHP Level 1 Exam Preparation
- V. Required Reading
- VI. Keywords
- VII. Chapter Tips and Focuses
- VIII. Sample Exam Questions
- IX. Frequently Asked Questions (FAQ)

I. HEDGE FUND GROUP (HFG) OVERVIEW

The Certified Hedge Fund Professional (CHP) exam is sponsored by the Hedge Fund Group (HFG), the largest international hedge fund association in the world with 125,000+ members.

Members include multi-billion dollar hedge funds, hedge fund analysts, professors, consultants, third party marketers, prime brokerage professionals, and some of the leading hedge fund service providers in the industry.

The HFG has over a dozen Hedge Funds and Fund of Hedge Funds professionals on its Advisory Board. The group continues to attract new members, some of whom will join the Board of Advisors who oversee the CHP Designation Program.

II. CHP LEVEL 1 & LEVEL 2 DETAILS

The CHP Designation Program is a 100% online continuing education course. The CHP consists of two levels of testing, Level 1 and Level 2. Level 1 certifies that you have mastered a certain breadth and depth of hedge fund industry knowledge to help you excel within your current hedge fund position or enter the hedge fund industry.

Level 2, a more advanced certification, provides coursework and training in a specific area of the hedge fund industry such as due diligence, marketing/sales, investor relations, or analytics. While completing Levels 1 & 2 is not required to be considered a CHP Alumni, you must complete Level 1 before registering for or taking the exam for any Level 2 module.

4 STEP CERTIFICATION PROCESS

III. CHP LEVEL 1 PROGRAM TIMELINE

Registration for the CHP program is open year round. You may start the program within 1 business day of registration or at your convenience

IV. CHP LEVEL 1 EXAM PREPARATION

Candidates must purchase the required readings laid out here in the study guide. The keywords also provide some additional ideas on what to pay attention to within the readings but they don't cover everything that will be on the exam. The CHP exams are conceptual in nature and require more of an understanding than a great ability to memorize facts.

Preparation time for this exam depends greatly on each candidate's current knowledge, experience, reading speed and comprehension. It is impossible to calculate how much time a specific individual would need to prepare, but we suggest 75-100 hours of reading/study time.

Each exam (for Level 1 and Level 2) is a 2 hour exam administered online. In order to complete the exam in the allotted time, participants are required to gain a mastery of the core concepts covered in the required readings.

Those who have not read the material may have difficulty completing the exam within the 2 hour time limit.

Additional Resources Policy

You will not need a calculator, ruler, or any graphing device for the Level 1 CHP exam. The formula-based questions concentrate on identifying formulas and understanding their meaning, rather than performing calculations.

The Level 2 Exam and Completion of the Certification

All CHP candidates must hold the CHP Level 1 title before attempting the Level 2 exam. The Level 2 exam is administered on the same dates as the Level 1 exam. Upon successful completion of the Level 2 exam, the CHP Advisory Board confers the full CHP title upon the candidate.
